# Project Design Phase-II Data Flow Diagram & User Stories

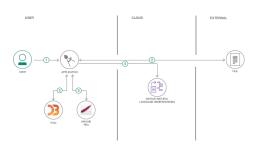

Date	03 October 2022		
Team ID	PNT2022TMID42453		
Project Name	Estimate of crop yield production using data		
_	analytics		
Maximum Marks	4 Marks		

#### **Data Flow Diagrams:**

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

### **Example:** (Simplified)

## Flow

- 1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
- $2. \ \mbox{User}$  selects data file to process and load.
- 3. Apache Tika extracts text from the data file.
- 4. Extracted text is passed to Watson NLU for enrichment.
- 5. Enriched data is visualized in the UI using the D3.js library.

### DFD for estimate of crop yield production using data analytics:
